All programmes have the option of adding extra weeks, with a range of treatments carefully curated to enhance the health goals.

Detox & Optimal Weight

Effective synergy for cleansing the body and achieving a healthy weight

This programme is designed to provide remarkable and concrete results in the process of bodily detoxification and metabolic reactivation. Our focus is centered on achieving a deep purification and revitalizing the metabolism, with special attention to attaining effective and long-lasting results that will enable you to progress towards optimal health.

WHAT CAN YOU EXPECT FROM THIS PROGRAMME?

- Enhance the body's detoxification process by merging two vital approaches: achieving a healthy ideal weight while simultaneously conducting a cleansing and detoxification procedure for an optimal state of health.
- Analyze various metabolism and detoxification indicators, as well as **implementing measures to counteract any metabolic imbalances.**
- Promote physical activity as an essential component to achieve an ideal weight and enhance the body's natural detoxification capability.

IT IS FOR YOU IF

- You have **inadequate habits** such as excessive consumption of coffee, alcoholic drinks, tobacco, medicines and/or poor diet, among others.
- Suffer from overweight or obesity and **are looking to improve their state of health**, as well as if they wish to reduce or gain a few kilos to improve their appearance.
- You have a **reduced physiological capacity** for proper detoxification of the body.

METHOD

Through the supervision and advice of our team of professionals, we seek an approach to new healthy habits, through:

- A personalised food and health plan.
- Natural therapies and tenological treatments focused on weight reduction, elimination of body toxins and reinforcement of natural purification mechanisms.
- Control and monitoring of body weight and body composition.
- Lifestyle recommendations, with activities that enable the learning of new healthy habits.

Rebalance & Energize

Revitalise the body to restore and achieve maximum physical and mental vitality and balance

Rebalance & Energize takes an innovative approach that incorporates clinically supported and patented technologies and treatments to relieve stress, rebalance the body's systems and revitalise its functions at the cellular level, providing maximum recovery and dramatically boosting vital energy.

WHAT CAN YOU EXPECT FROM THIS PROGRAMME?

- **Recover and revitalise the organism** through different natural therapies and scientific medicine treatments, which **reduce the negative effects produced by continuous stress**, promoting cellular health and longevity
- **Increase vitality levels** through revitalising medicine and energy health treatments, which provide energy at a cellular level and improve the functioning of all the body's systems.

IT IS FOR YOU IF

You feel exhausted and **you are looking to regain energy**, revitalise or reduce stress, as well as wanting to unwind and relax while learning new healthy lifestyle habits.

METHOD

Through the supervision and advice of our team of professionals, we seek an approach to new healthy habits, through:

- A personalised diet plan and health plan.
- Natural therapies and technological treatments.
- Lifestyle recommendations, with activities that allow the learning of new lifestyle habits.

Leader's Performance

Optimal performance and long-lasting vitality for those who live under demanding conditions

Being aware of how difficult it is in a leadership position to find the time to take care of oneself, we have designed an intensive 7-day programme combining the most effective treatments and methodologies from both scientific and holistic medicine to achieve optimal physical and mental performance. An executive health programme.

WHAT CAN YOU EXPECT FROM THIS PROGRAMME?

- Achieve optimal physical and mental performance through the application of highly effective treatments, including Western and Eastern medical approaches.
- Achieve and maintain optimal health in the face of high levels of activity, exertion and stress, with substantial improvement in performance and productivity.

IT IS FOR YOU IF

You are exposed to a high degree of activity, effort, stress, decision-making, continuous travel, etc., and seek to monitor and care for your health, improving your performance and productivity.

METHOD

Oxidative stress is caused by natural cell division or by external factors, such as poor diet, the bad air we breathe, bad habits, etc., which lead to inflammation, disease, infection, ageing and loss of vitality. Through the supervision and advice of our team of professionals, we seek an approach to new healthy habits, through:

- A food and personalised health plan.
- Natural therapies and advanced treatments of well-ageing, revitalising, regenerative and cognitive health medicine.
- Lifestyle recommendations, with activities that enable learning new lifestyle habits.

Well-ageing & Prevention

Innovative preventive approach to slow cellular ageing

This programme aims to slow down the process of cellular degeneration and to reactivate the health potential of each person. The aim is to provoke a natural stimulation and reconstruction of the different metabolic processes and systems, through prevention and through prevention and the strategic application of innovative treatments of well-ageing innovative treatments of well-ageing medicine.

WHAT CAN YOU EXPECT FROM THIS PROGRAMME?

- **Optimise health** by delaying or reducing the effects of ageing, determining biological age indicators and the differences with respect to chronological age, as well as the factors likely to have a negative impact on quality of life.
- **Improve physical appearance and vitality**, slowing down the biological clock from a global and integrative approach, thanks to the combination of knowledge in natural therapies, oriental medicine, nutrition and the latest advances in well-ageing medicine.

IT IS FOR YOU IF

- You are aware that due to the mere passage of time and being subjected to multiple external factors, bad habits or pathological processes, stress or lack of rest, **you notice that your appearance, physical or mental capacities are inferior to what you would like them to be**. You would like to know about the numerous possibilities that exist to slow down your biological clock from a global approach, making biological rejuvenation possible.
- Or if, in your case, **you perceive that you are beginning to suffer** from certain health problems caused by the natural ageing process and wish to incorporate knowledge, techniques, eating habits and supplements to slow down the process.

METHOD

Through the supervision and advice of our team of professionals, we seek an approach to new healthy habits, through:

- Determination of biological age, level of oxidative stress, or other indicators obtained through various clinical analyses and diagnostic tests.
- Physical exercise with personalised training and body-mind discipline sessions.
- Natural therapies, medical and/or technological treatments
- Lifestyle recommendations, with activities that enable the learning of new healthy habits.

FAQ's

Can I stay at SHA without signing up for a health programme?

For your first visit, in order to get to know our concept and healthy lifestyle in depth, you must sign up for a health programme for the duration of your stay:

Your programme can always be complemented with additional treatments or services, according to your health needs and objectives.

| Length of stay | Suitable programmes |
|---------------------|--------------------------------------|
| From 04 to 06 days* | 4-day Rebalance & Energize programme |
| From 7 to 13 days | 7-day programmes |
| More than 13 days | 7-day programmes + additional week |

If you have already been a SHA guest, you may reserve a health programme or an *à la carte* visit. In that case you may select the treatments and services that best suit your needs and in all cases you must sign up for our complete meal plan.

When must I choose my programme or my *à la carte* treatments?

Preferably at the time of booking. This will allow us to organise your agenda in advance, thus optimising each day of your stay and reserving the treatments and services of your choice. Requests for additional services will be subject to availability at the time of your request.

May I start my programme any day of the week?

Yes, it is possible to start your health programme on the day that best suits your needs, subject to availability. It is important that you provide us with your estimated time of arrival and departure from SHA well in advance, so we can organise the beginning of your schedule accordingly. If we do not receive this information at least 72 hours before your arrival, your activities will begin the day after your arrival.

May I make changes to my programme?

Our programmes include a selection of treatments and services aimed at achieving a specific health objective. This means that we cannot permit changes to your programme, unless our medical team decides that treatments included in your programme after the initial consultations are contraindicated. In that case you will be offered a suitable alternative. However, some treatments included in your programme have predetermined alternatives that can be adapted to your preferences and needs.

What is the minimum time to achieve a health outcome?

The minimum duration to achieve a noticeable result is 7 days. However, we recommend a stay of at least 14 days for more visible and meaningful results.

May I complete my programme in less time?

To achieve your desired results, it is advisable to complete the full duration of each health programme.

*Subject to minimum stay policy according to the period of the year.

Does the programme include food?

Yes, all of our health programs include a complete meal plan. In the event you add days to your visit, you must also add full board those days at extra cost.

Why is the full meal plan mandatory?

Healthy nutrition one of the fundamental pillars of our method, so it is essential that you follow a diet consistent with our philosophy during your stay.

All our dishes and menus, made with fresh and seasonal products, offer a wide variety of flavours and textures that awaken the palate while contributing to your health and well-being.

Is accommodation included in the price of the programme?

In order for you to select the type of accommodation that best suits your preferences and needs, our pro-grammes do not include accommodation. Instead, you may select it separately.

Can you sign up for more than one programme per guest during the same stay?

In order to prioritise your health objective and avoid duplication of treatments and consultations, it is only possible to sign up for one programme per guest during your stay.

It is always possible to customise your programme by adding the most appropriate additional treatments and services.

Can a minor take a health programme?

A minor can take part in a health programme, subject to authorisation signed by a parent or legal guardian, from the age of 16.

Is it possible to do a health programme without being a guest?

In order to guarantee the exclusivity, peace and privacy of our guests, we do not offer health programmes for people not staying at SHA.

Our Reservations Department is at your complete disposal to provide you with all the information you may need, assisting you in selecting the health programme and the treatments and services that best fit your preferences and objectives.

If you need advice, do not hesitate to contact us.

GENERAL INFORMATION AND CONDITIONS

ACCOMMODATION CONDITIONS AND DETAILS

- Accommodation rates are per room, suite or residence and per night, taxes included.
- Arrival time is from 3:00pm and departure time is up to 12:00pm. If you leave the room after the established departure time, the corresponding current rate will be automatically charged to your account.
- For certain periods of the year SHA Wellness Clinic applies a minimum length of stay policy. Our Reservations team will inform you at the time of your booking request.
- The full board price includes breakfast, lunch and dinner, and will be charged as a total amount per person per night of your stay. No refund will be provided for not consumed meals.
- Presidential suites, Royal suite and SHA Residences' rates are per suite/residence regardless of the number of occupants. The maximum number of adults is 4.

PROGRAMME RESERVATION CONDITIONS

- The programmes offered at SHA have been designed by the medical team to achieve the indicated health goals. In order to ensure adequate therapeutic evaluation and achieve the desired results, booking a health programme is mandatory on your first stay at SHA. Additional treatments and services may be reserved as desired.
- For returning guests, although it is still advisable to book a health programme, it will be possible to design your stay using treatments and services *à la carte*, without a scheduled health programme.
- If a health programme is not booked, a full-board meal regime (200€/person per night of stay) will be automatically added to your reservation. In order to have access to the Kushi diet, medicinal teas and therapeutic fasts, a healthy nutrition consultation must be booked (180€). If you already had a SHA nutritional consultation in the 6 months prior to your visit, you may instead book a nutritional plan validation (90€).

BOOKING CANCELLATION POLICY

- As long as you give at least 14 days' notice, you may cancel your reservation without penalties, except for a 3% administrative fee. After this period, a penalty equivalent to 50% of the total contracted stay will be charged.

- If more than 30 days have elapsed since the payment of the deposit, the refund can only be made by bank transfer to the guest's preferred account.

All cancellations must be notified to the Reservations Department by email.

BOOKING MODIFICATION POLICY

- You may change your arrival date without fees as long as you notify us 7 days in advance.
- If you modify your arrival date fewer than 7 days before the booked date, the following fees will apply:
 - 500€ per person if the new arrival date is within 48 hours (before or after) of the original date
 - 1.000€ per person if the new arrival date is more than 48 hours (before or after) from the original date
- If the modification's notice is received on your scheduled arrival date, in addition to the previous fees, we will charge one night's stay. As an exception, we may waive the above charge if the original number of booked nights is unchanged.
- If the check-in date had already been modified, any successive cancellation will incur in cancellation fees, for the total amount of the deposit initially paid.

CANCELLATION POLICY AND MODIFICATION OF PROGRAMME AND / OR EXTRA TREATMENTS

- The booked programme may be replaced by another programme or, for returning guests, by *à la carte* treatments, up to 7 days before the arrival.
- Once this time limit has passed, the following fees will apply:
 - 300€ in the event of cancellation* or replacement of 4-day programme.
 - 500€ in the event of cancellation* or replacement of 7-day programmes.
 - 700€ in the event of cancellation* or replacement of programmes of 7 days with additional weeks.

*Cancelling a programme requires booking another programme or, in the case of returning guests, booking full board with treatments and/or services *à la carte*.

- The penalty shall not be applied when it is in favour of a programme of a higher amount.

- Additional treatments and services booked may be substituted during the stay for other treatments and/or services, but may not be cancelled, except for 30% of the total pre-contracted amount.

MINORS

- In order to maintain an atmosphere of relaxation and tranquillity, the minimum age for admission to SHA Wellness Clinic is 12 years old, with the exception of SHA Residences, where children under 12 years old are welcome, with adult supervision at all times.
- Children under 12 are not allowed in SHA common areas, including: the Wellness Clinic Area, the Hydrotherapy Circuit, SHAmadi Restaurant, swimming pools and terraces, among others.
- In the event guests between 12 and 16 years old wish to enjoy treatments or services, SHA requires signed authorisation and the presence of their parents or guardians during the provision of services.

PETS

- Pets weighing less than 10kg are welcome at SHA, with a supplementary fee per night of stay.
- Pets will not be allowed to walk in, access or stay in SHA common areas or make use of elevators.
- Owner supervision is required at all times to avoid any inconvenience with other guests and the owner will be responsible for any damage caused by the pet. In case these conditions are not respected, the owner will be asked to house the pet outside of the property.

TRANSFER AND PARKING SERVICES

- SHA offers a high-end car transfer service to and from the nearest airports, Alicante and Valencia, as well as other transfer options.
- Covered parking is available on the premises.

Contact the Reservations department to find out about prices and conditions for these services.

INFORMATION TO KEEP IN MIND

- The official languages of SHA are Spanish and English. If you need something translated or interpreted to any other language during your stay, please notify us in advance to discuss the additional costs.
- In compliance with current legal regulations and for your and other guests' well-being, smoking is strictly prohibited in the SHA Wellness Clinic facilities. In case of non-compliance with the current regulations, a penalty of €500 will be applied for each infringement.
- Silence and tranquillity are essential values at SHA. In order to enjoy them, please keep noise levels to a minimum, taking special care between 2:00pm and 4:00pm and after 10:00pm.
- Electronic devices must be kept silent. Answering phone calls in common areas is forbidden. Furthermore, in order to respect the privacy of all our visitors, it is strictly forbidden to take photos or videos of other guests without their consent.

For further information about accommodation conditions and details, cancellation and booking modification policy, as well as other available services, please contact our Reservations Department: T +34 966 811 199 reservations@shawellness.com
