CAMEL ADVENTURE

Embrace the spirit of the Negev desert

Set off to explore the magnificent desert landscape and go back in time to the Nabataean period as we walk the paths of the famous Incense Route.

We will discover the wonders of the desert in all its glory of plantation and wildlife. We will learn about the archeological sites along the way, the historic significances and the unique geographical features of this area. Just like in ancient times as the nomads in this area used to do, we will satisfy our thirst with sweet herbal tea and traditional local food as it was customary to take for travels in Nabataean times. Seated in the shade, leaning on authentic pillows and rugs, we will rest and enjoy the open sky and the desert horizon.

In the journey of the Caravan, you will learn about the camel's origin, its history of domestication, and its adaptation to the desert conditions. While trekking, you will notice the landscape and learn about the Syrian-African rift, the Jordan Mountains, and the Arava valley. You will understand methods of husbandry, how camels are raised in Israel, and the vocabulary of camel communication so you can enjoy your walking companion to the max.
